Good Saturday Afternoon All,

I am recovering from a week in the hospital. Although I am fine now, the incident has caused me to decide to refocus the 10 - 15 hours per week (for the last 19 months), that I have spent following and commenting upon Council actions, on other pursuits, as well as spending more time with my wife.

I am not going any where! I do NOT plan to shut down my website, and I may make a post from time to time - if I do I will put out an email to that effect, and rely on those for whom I still have a correct email address to forward it. Hopefully you have learned what to follow, and where to find it: on the City website, You Tube, and Facebook. I will probably post this email on my website as well, via my "Home" and "Observations" pages.

In the short term, your taxes are funding Council's numerous staff/ "volunteer" entourage to communicate extensively about, and manage, many new fun events that may be endearing them to you. **Your taxes are also paying** for these events. **Hopefully these near-term charges** will not result in a **tax increase**, however mitigation of these expenses logically should result in a **tax decrease**.

For the long term, I hope you will hold the Council accountable for their **poor strategic decisions**: e.g., the sale of the Budget Football Practice Field, and the adjacent Historic Bill Evans baseball field, green spaces (both for a fraction of what they should have been worth). Similarly, **the Council is in a position to squander the Six West Strategic Advantage**, thus negating **forever** what has taken decades to achieve through buying back our land from the airport.

Please continue to be vigilant. I am looking forward to seeing you at one of the many future City events.

Regards,

Ambrose

Ambrose W. Clay
"We take care of each other."
